

Aerospace Accessory Service, **Emergency Equipment Division** is approved to recertify all makes and models of Aircraft First Aid Kits including:

- Standard Emergency Medical Kits (F.A.K)
- Enhanced Emergency Medical Kits (E.M.K)
- Automated External Defibrillators (All makes and models)
- Specialty defibrillators: Philips FR2, and Medtronic LifePak500

Aerospace Accessory Service, Inc manufactures Standard First Aid Kits (P/N AA-1218, P/N: AA-8565) and Enhanced Medical Kits (P/N: AA-8565A) which are fully interchangeable with all manufactured First Aid Kits in Form, Fit, and Function.

Our valued customers receive:

- 24 to 48 hour Turn Around Time
- Lower recertification, replacement, and/or exchange costs
- Dual Release Certification (upon request)
- Around the clock customer support and
- Flight crew training (when necessary)

Beyond Economical Repair (B.E.R.) containers (F.A.K, E.M.K.) can be replaced at a standard flat rate, by a Factory New, Aerospace Accessory Service container/unit at ***no additional cost.***

Aerospace Accessory's Emergency Medical Equipment Division is also a prime distributor for:

- FAK, AED, EMK, installation brackets for all aircraft applications,
- ATC (Aircraft Transport Chair) on-board light weight wheel chairs, equipped with fire-retardant materials throughout (seat, back and carrying case.)

We look forward to becoming your prime source for all your Emergency Equipment needs. If you *have a requirement, please feel free to contact us at any time*
